Who we are

We have a rich heritage supporting Fiji customers for 120 years. The Westpac we work at today has the same purpose as when we opened the first branch in Suva in 1901; to support economic growth that helps people across Fiji to thrive and to facilitate trade between Australia, Fiji, the Pacific and beyond.

Our vision and values

At Westpac our vision is to help our customers, communities and people to succeed. We will do this by being easy to do business with, having deep relationships with our customers, and having a strong reputation across Fiji.

Who we're looking for

People who are confident in building relationships and communicating with our diverse customers and employees. We want people who are passionate, have an interest in financial services and feel connected to our vision and values. We celebrate diversity, that's why we recruit from a wide range of degree disciplines to build a better, stronger and more vibrant business.

GRADUATE PROGRAM

“ The Westpac Graduate Program formed the foundation of my professional career with the opportunity to explore my interests in several areas of the Bank, prior to settling into one that I felt was best suited for me. Not only did I get a well-rounded experience across various departments, but I was well supported with personal guidance and mentoring - fostering relationships and friendships along the way - that have been key to my career progression.
